RESURFACING OF PINE STREET IN MOUNT HOLLY POSTPONED

Two-Week Construction Delayed by Equipment Problems

The resurfacing of a 0.7-mile stretch of Pine Street (County Route 612) in Mount Holly from South Avenue (CR 683) to Mill Street (CR537) has been postponed until further notice. The construction was scheduled to begin Monday, August 13.

American Asphalt Co., Inc. /Jersey Construction, Inc. – A Joint Venture of West Collingswood is the contractor for the County's 2011 State Funded Overlay Program, and notified the county today that one of its milling machines needs to be repaired.

The milling and overlay construction is expected to take two weeks to complete. Traffic will be maintained with one lane alternating. Motorists can expect delays and are encouraged to find alternative routes during construction.

This is final project of 16 roads scheduled to be resurfaced in the Program that will have overlayed a total 23.7 miles of County roads in 16 municipalities at a cost of \$7.2M.

It is estimated that 68,000 tons of asphalt were used to complete all construction scheduled for the program.

The county highway network includes 508.4 miles of county roads, 364 bridges, 700 culverts, more than 243 traffic control devices and 17,000 signs.
