**FREEHOLDERS APPROVE 2010 ROAD RESURFACING PLAN**

**\$7 Million Program Revised To Overlay 27.4 Miles Along 18 Roads in 17 Towns**

The Freeholders today reviewed Acting County Engineer Jeffrey E. Wright's \$7 million revised plan for resurfacing 18 County roads in 17 municipalities for a total of 27.4 miles.

The County would fund the project with \$6,065,500 from the annual NJ Transportation Trust Fund. The remaining \$988,500 would be funded by the County.

"We are fortunate that we received more than \$1.5 million in additional funding from the state for our Annual Resurfacing Program compared to last year," Freeholder Deputy Director Joseph B. Donnelly said. "This year we expect to be able to overlay 18 roads for less than \$1 million from the County (bond funds). That is a judicious use of our funding."

A preliminary plan was revised to add resurfacing of a portion of Levitt Parkway (County Route 630) in Willingboro and Westampton, and to delay resurfacing sections of Sunset Road (CR634) in Willingboro and Burlington Township and County Route 541 in Medford.

Utility companies and the 17 municipalities in which construction will be scheduled will be notified to avoid conflicting with any other road construction projects. The Program Plan now will be submitted to NJ Department of Transportation for its approval.
