STORM DRAIN PIPE REPLACEMENT TO CLOSE SOUTH LENOLA ROAD

Construction To Begin Nov. 9 between Camden Avenue and Kings Highway

Replacement of 700 feet of drainage pipe along South Lenola Road (County Route 608) between Camden Avenue (CR537) and Kings Highway (CR611) in Moorestown and Maple Shade is expected to begin Friday, Nov. 9, Public Works Director/County Engineer Joseph T. Brickley announced today.

The construction is expected to necessitate closing the road beginning on Monday, Nov. 12 between 8:30 a.m.-3:30 p.m. each day for approximately one week, weather permitting. A detour will be posted.

South State, Inc. of Bridgeton is the contractor for the \$168,332 project that involves replacing the existing deteriorated perforated corrugated metal pipe with an 18-inch perforated polyethylene pipe.

The drainage pipe is under South Lenola Road from the bridge over the North Branch of the Pennsauken Creek that divides Moorestown and Maple Shade to the driveway entrance to The Arbors apartment complex in Maple Shade.

The posted detour is West Camden Avenue (CR 537) to State Highway 73 to State Highway 38 to State Highway 41 to Kings Highway (CR611).
