

Process for asking for letters of consistency from the Burlington County Continuum of Care:

30 days before needing the letter of Consistency, an agency will ask the Governance Board Chair for a letter. The request will outline the scope of the project with complete details. The request should cover the agency's participation and capacity to partner with our Coordinated Assessment system and coordinate with HMIS connected agencies for streamlined services and tracking persons quickly into permanent housing.

The Governance Board will discuss the project and review the details. The Governance Board will review the Coordinated intake and HMIS components if relevant.
