

ANGELSENSE DEVICE FEATURES:

REAL TIME MONITORING/MAPPING

See locations, arrivals & departures, travel times, transit speed, etc.

SENSORY FRIENDLY DESIGN

AngelSense has multiple wearing options that are sensory-friendly.

FIRST RESPONDER/RUNNER MODE

Get help from a personalized search team of your choice such as local police agencies, family, friends, etc. This option allows you to send a link of the Angel's exact location.

LATE DEPARTURE WARNING

Get alerted if the Angel isn't on their normal schedule such as riding a bus home from school.

1-WAY & 2-WAY VOICE CALLS

Caregivers and parents have the option to 1-way (hear what is going on around the Angel) or 2-way (caregiver/parent and Angel could communicate to one another through the device).

SOS CALL REQUEST BUTTON

Angels can use this feature to alert their parent/guardian if they are lost or need help.

EXPERT CUSTOMER SERVICE

AngelSense customer service care team is made up of individuals who have loved ones who use AngelSense devices.
